**DETAILED ACTION**

***Response to Amendment***

1. The amendments, filed 07/27/2009 have been entered and made of record. Claims 1-7 are pending.

***Response to Arguments***

2. Applicant's arguments with respect to claims 1-7 have been considered but are moot in view of the new ground(s) of rejection.

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Plourde JR. (US Pat. No. 2003/0105918) in view of Bell (US Pat. No. 5, 671, 420).

Regarding claim 1, Plourde discloses a method of increasing the available storage space in a memory comprising the steps of:

defining in a the memory a free memory list, the free memory list contained in a first physical memory area of the memory, the free memory list configured to contain one or more portions of one or more files (see figures 3B, 5A-5C and paragraphs 0087 and 0090);

storing a file in the memory, the file including a first portion contained in a second physical memory area of the memory and a second portion contained in a third physical memory area of the memory (see figure 3B, paragraphs 0065 and 0084);

selecting a the first portion the file stored for deletion (see paragraph 0092); and

copying only the selected first portion of the file from the second physical memory area to another physical memory area that is a free memory list without copying a the second portion of the file contained in the third physical memory\_ area and resulting in the second physical memory area being deallocated (see figures 5D, 5E and paragraph 0085).

Claim 1 differs from Plourde in that the claim further requires physically copying a selected portion of the file to an appended physical memory area.

In the same field of endeavor Bell discloses a programmer can select to add a new file area (see col. 17 lines 42-65) and copying a portion of the file that are selected to a new file area is performed (see col. 23 line 18-col. 24 line 9). Therefore in light of the teaching in Bell it would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Plourde by performing copying selected portion of a file physically in to an added portion of memory area in order to distribute files based on user selection.

Regarding claims 2 and 5, Plourde discloses the file is an audio file or a video file (see fig. 3A).

Regarding claim 3, Plourde discloses the selecting the first portion of the file stored on the electronic storage medium creates a plurality of file segments (see figure 5D and 8A-8C).

Regarding claim 4, Plourde discloses the step of linking the plurality of file segments together (see figure 5F).

Regarding claims 6 and 7, Plourde discloses the electronic storage medium is a memory of a personal video recorder (see fig. 2 and paragraph 0087).

### ***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
